System FAQs

Titan HST

EMERGENCY 2-WAY COMMUNICATION PLATFORM SUPERCHARGED
WITH AUGMENTED REALITY AND REAL-TIME TRANSLATION

FAQ: Emergency Operations

EMERGENCY	BERT/TitanHST RESPONSE
How can we help an Individual in trouble?	Hit one-button to advise management of the issue and location; then open two-way written, video and audio communication streams.
How can we Locate all field personnel in systemic emergency?	One-button Status Request with One-button Reply populates interactive map of each person and their status.
What if building is partially collapsed / area obscured by smoke, can people be located?	Augmented reality sees through walls and up multi-stories finding your trapped people instantly.
How to implement FEMA Incident Command System (ICS) Emergency Management?	Set up teams on the fly, assign roles and responsibilities, dispatch and receive reports.
How does this interact with First Responders?	DOES NOT REPLACE 911 – local first responders can be incorporated at their option.

Prompt your organization to check in, providing location & safety details.

FAQ: Communications

CHALLENGE	BERT/TitanHST OPTIONS
What if a Broadcast message needs to be sent out to whole organization or individual teams?	One button – select or personalize message – deliver to phone, app, computer, robocalls, or text.
How does system handle Information Management?	Pre set groups or on-the-fly set up for specific information management.
What are the different Communications Options?	Instant Two-way text, Picture, Chat, Video, group calling, GPS Location, Robocalls.
Can Language barriers be broken?	Communications automatically translated into various languages on the fly.

FAQ: OSHA Compliance

COMPLIANCE	BERT/TitanHST RESOLUTION
Where is the organization OSHA Injury Illness Prevention Program (IIPP)?	Uploaded to each device/computer.
How does system handle Near Miss / Employee Recognition / Incident management?	Instant submission to Safety Team with Partner, date, time, description and picture.
How does system handle OSHA Incident Tracking	Tracking of incidents with assignments is in final development.
How does the system assist in Safety Team Management?	Tools and training to support enhanced culture of safety.
How are Contractors / Subcontractors managed?	All personnel under one safety umbrella.

FAQ: Safety/Security

CONCERNS	BERT/TitanHST RESPONSE
What if Safety Documents need to be updated?	One upload instantly updates every device or computer.
What if Systems Fail?	App Base / Web Based / Mesh technology is operational if full failure.
How do we manage individual device tracking Concerns?	App does not track any device until/unless individual engages in the incident; it then stops tracking when incident closed.
How about information Security?	Privacy-centric and state of the art security.
Is the system managed onsite?	Users set up / removed by you instantly.

FAQ: Additional Notes/Services

Training in
Anguilla &
El Salvador
